SM L3 Certificate 1

Document purpose. This certificate is the formal L3 supersession review document for the NFC SM branch-successor pilot.

SM Branch L3 Equivalence Certificate

Posture: intrinsic-structural-close

L3 gate: PASSED (9/9 criteria)

Active frontier: ob:SM.O-IDcont — O-IDcont Continuum/Operator Identification Force Upgrade

Supersession: none

SM has conditional intrinsic structural closure: four internal obligations (Harmonization, Matter, Higgs, CouplingTransfer) conditionally discharged. $Status(SM) \leq Status(YM)$ AND $Status(GR)$. O-IDcont
Note: First pilot to exercise intrinsic-structural-close posture. thm:SM.three-gen is [U] (unconditional).
