Book V L4 Certificate

1

Book V closes the branch-spine dependency gap. The UBLT (Thm. V.8.1) is cited by all 10 branch books. With Book V machine records, the governance engine can trace the full branch-to-spine dependency chain. This is an L4 spine-pilot shell — the canonical Book V is the authoritative source.

Book V L4 Equivalence Certificate

L4 gate: PASSED (10/10 criteria)

UBLT status: [U] (must be [U])

Branch projection (Prop. V.3.1): [U] (must be [U])

All primary results [U]: True

Open branch = lawful [U]: True

Primary contribution: Closes the machine-readable dependency gap between the spine and the branch books. Branch books cite thm:V.UBLT (= Thm. V.8.1) and prop:V.branch-projection (= Prop. V.3.1). With Book V machine records
