Book VII L4 Certificate

1

L4 governance notice. Book VII is the governance book. Its theorems establish the rules governing all other books. All Book VII theorems are [U]: conditional governance rules would be self-undermining. This is a machine-generated L4 spine-pilot shell. The canonical Book VII remains the authoritative source.

Book VII L4 Equivalence Certificate

L4 gate: PASSED (9/9 criteria)

All governance theorems [U]: True

Session L+6 additions: True

Governance rule mapping: True

Prose completeness: 100.0%

The governance engine auditing its own canonical source: Book VII's theorems are implemented as governance_rules.yaml checks.
