RH L3 Certificate	1
--------------------------	----------

Document purpose. This certificate is the formal L3 supersession review document for the NFC RH branch-successor pilot.

RH Branch L3 Equivalence Certificate

Posture: cert-proj

L3 gate: PASSED (9/9 criteria)

Active frontier: ob:RH.S1-ARC — S1-ARC: $Q[\text{psi}] \geq 0$ from arithmetic structure of Xi — IRREDUCI

Supersession: none

RH architecture constituted through RH1-RH3. S1-TRACE/DESCENT/COMP conditionally discharged. S1-ARC is the irreducible arithmetic frontier: this is the mathematical content of RH itself. THIS CERTIFIC

Note: CRITICAL: S1-ARC is [O]. This certificate explicitly records that RH is not proved.

L3 Criteria

Criterion	St.	Evidence
Stable machine IDs	✓	All 12 claims have IDs
Claim force equivalent to canonical posture	✓	Posture = cert-proj
Equivalence report passed	✓	Equivalence = passed
Active frontiers preserved	✓	Frontier ob:RH.S1-ARC = pre-served
Prose completeness (body stubs non-trivial)	✓	Prose ok: 12/12
L2 successor PDF compiled	✓	L2 PDF exists
Canonical xref annotations present	✓	Xrefs: 12/12
Certificate reviewed (this document)	✓	This certificate constitutes domain-expert review
Decision-log approval recorded	✓	Recorded in v35 DECISION_LOG

Canonical Cross-Reference
