Book III L4 Certificate (Final Spine Book)

1

Book III is the final spine book. With this pilot, the full seven-book NFC spine has machine-readable L4 records. The Unified Coercive-Transport Inequality $C_{n+1} \leq \Theta_n C_n + E_n + B_n$ is the branch-agnostic load-bearing core [U]. The ACA Coercivity Chain [C] feeds Book VI's NS-4B Sobolev surrogate. This is an L4 spine-pilot shell — the canonical Book III is the authoritative source.

Book III L4 Equivalence Certificate

This is the final spine book. Seven-book spine machine-readable L4 coverage is now complete.

L4 gate: PASSED (11/11 criteria)

Unified coercive-transport inequality: [U] (must be [U])

Depth-sum convergence: [U] (must be [U])

ACA chain: [C] (must be [C])

All 7 spine books present: True

Completes the seven-book spine. Provides: (1) the Unified Coercive-Transport Inequality [U], the branch-agnostic load-bearing core; (2) the ACA Coercivity Chain [C], feeding Book VI NS-4B Sobolev; (3) the OT arena as the immediate precursor to Book I

L4 Criteria

Check	St.	Observed
l4.iii.unified-coercive-U	✓	thm:III.unified-coercive status = U
l4.iii.depth-sum-U	✓	thm:III.depth-sum status = U
l4.iii.ACA-chain-C	✓	status = C, constraints = ['K0-7', 'Phase-A', 'BUO-delt
l4.iii.BUO-def-present	✓	present
l4.iii.governing-U	✓	thm:III.governing status = U
l4.iii.U-layer-unconditional	✓	all [U]
l4.iii.C-layer-conditioned	✓	all conditioned
l4.iii.III-IV-transition	✓	def:IV.POT-object present: True
l4.iii.ACA-to-VI-linkage	✓	thm:VI.NS-4B-sobolev present: True
l4.iii.prose-completeness	✓	100.0% (17/17)

Check	St.	Observed
l4.iii.xref-annotations	✓	17/17
